Profile

BSc IT graduate with hands-on experience developing and maintaining real-world web applications in a production environment. Skilled in debugging, feature development, and improving system performance across frontend and backend systems. Strong foundation in software engineering and problem-solving, with a focus on building scalable and maintainable solutions.

Experience

Retail Experience:

Tape | February 2023- August 2023

Sales Representative - Point of Sales – Stock Taking

Event Experience:

Festival Of Motoring | August 2025

Letter attached below

Operations Developer (YES! Learnership) Barrows | Nov 2025 – Present

- Engineered a custom Model Context Protocol (MCP) for Jira that automatically analyzes branch and code changes to generate non-technical summaries for Product Owners and comments the summary on the Jira card
- Debugged and resolved production issues including routing errors, filtering logic, and session handling
- Built new features such as form builders, dashboards, authentication flows, and advanced filtering systems
- Scripted and deployed database CRON jobs to autonomously manage and optimize local storage and Google Drive folder space
- Implemented session persistence and timeout mechanisms to enhance application security
- Containerized applications using Docker for consistent development and deployment environments
- Managed repositories, pull requests, and collaboration workflows using Bitbucket
- Applied code quality standards using SonarQube to detect bugs and vulnerabilities
- Developed automation workflows using n8n, including scheduled notifications and API integrations
- Deployed services and configured domains to improve system accessibility and API usage
- Contributed to mobile app improvements, migrating retool app functionality to the companies ionic based app.

Technical Skills

Languages:

Java, Python, JavaScript

Development:

Object-Oriented Programming (OOP), REST APIs, debugging, feature development

Web Technologies:

HTML, CSS, SCSS

Tools & Platforms:

Docker, Git, Bitbucket, SonarQube, n8n

Databases:

MySQL (basic)

IT & Systems:

Networking fundamentals (DNS, DHCP), Linux basics, troubleshooting

Projects

-Java Task Manager (Console & GUI) - Developed a task manager app with task creation, search, completion marking, and file persistence.

-Exploratory Data Analysis (Mall Customers Dataset) - Cleaned and visualized customer data to extract insights using Python.

-LeetCode/OOP Prep - Solved 40+ coding problems focusing on arrays, sliding windows, and recursion patterns.

-Quantum IT Project Research – Worked on creating Project Aegis. A Post Quantum Encryption Self Hosted Vault.

-Identified a popular local restaurant lacking online visibility. Reached out to the owner and volunteered to create a Google Business profile and a responsive website (oyoma.netlify.app). Improved customer access to contact details, location, and hours, boosting the restaurant's online presence.

Assist with accreditation of guests from morning breakfast and evening cocktail function, Guide media during the day to visiting stands. Overview of the Media Day procedures from 28 August until 31 August 2025. Hand out wristbands to Media on presentation of letter - provide event information to the media Date of Participation: 28 – 31 August 2025

Name of Event: Festival of Motoring

Dear Jeremiah

On behalf of the Festival of Motoring team, I would like to extend my sincere gratitude for your outstanding contribution during the 2025 edition at Kyalami.

This year, our theme highlighted the *Spirit of Ubuntu* — the belief that we achieve more together than we ever could alone. Your presence embodied that spirit. The way you worked seamlessly with the team, your camaraderie, and the warmth you showed to our guests did not go unnoticed. You helped create the welcoming and engaging environment that defines the festival.

The team truly enjoyed working alongside you, and your energy added to the success of the weekend. Thank you for being part of this shared achievement and for contributing to an unforgettable event.

We wish you continued success in your studies and future career, and we hope to welcome you back to the festival family again.

With appreciation,
Yours sincerely

JudyM

Mrs Judy Maharaj Show Director
Festival of Motoring South Africa
